I commenced Survey of Section

578 Town 7 North,

Range 6 West.

E. G. Cox

County Surveyor.

On Petition and
 E. Notice by Publication
 of Harry Routh
 Madison & Peoples
 and William Sech

COURSE.

DISTANCE.

REMARKS.

I commenced Survey of Section 5 & 8 Township 7
 North of Range 6 West. I commenced at the North
 East Corner of Section 4. in said Town & Range
 at a corner established by J. M. Parker. by taking
 a bearing on Range line east. I ran west on
 line bearing at 80.64 chains to a stone set for the
 SE corner of Section 32 T 8 R. 6. by W. W. Clayton 40 links
 to my right. 160.55 chain to corner set by Parker for
 the SE corner of Section 31 T 8. R. 6 and which has been
 regarded in all survey, as the corner of Section 5 & 6
 T 7 R. 6. As government survey makes no lap corner
 on town line. I took this corner for the NW corner
 of Section 5 T 7 R. 6. Returns to SE corner of Section
 32 T. 8. R. 6. and found both of the original B. T. Standing
 Hickory 16" South 86 West 20 Links and a Hickory 16" S 82 E 21 Links.
 the government field notes give the second tree mentioned as
 North 82° East 21 Links. It is evident that in copying
 field notes they have said North when it should be South
 I cut into the first named tree and found
 notch and axe marks plain. the growth of tree
 corroborating. See Note at Bottom of opposite page

Links
Distant.

I proceeded to Re. Est. the South East corner of Section
 33. T. 8. Range 6. This point being at equal distance
 from the NW cor of Sec 4 and NW cor Sec 5
 T 8 R 6. I made it also the cor of the last
 named Section. The org. B. T. for this corner
 not being located or found. I do not think there
 is any lap here. government field notes not making
 mention of it. I found some other lines but
 located an established nothing further. and at the
 request of two of Justice Peoples & Routh I
 adjourned Survey 'Sine die'

Note A

In setting stone for this corner from org. note
 in excavating for placing of stone I found
 unmistakable evidence of this being the original
 corner of Sec 32 & 33. the B. T. standing close
 together. making the junction point where corner
 was placed. necessary for to cut the roots. before
 the post was placed. I found the roots cut
 quite when stone was placed. leaving no
 room to doubt that this is not the org. corner
